# DSA: THE BENEFITS TO YOU

## LEADING EXPERTS

Acumen's digital team consists of experienced experts in development, data science and IT engineering.

These three key areas allow us to blend AI and machine learning with service led integrations and data based decision making .

**TECHNOLOGY | DATA | DEVELOPMENT**

## ENGINEERING CHANGE

Acumen's experience in developing nimble, process driven solutions is vital at a time of unprecedented shifts in the Aviation industry.

**LEADERSHIP | CREDIBILITY | RESPONSIVE**

## DESIGN & AUTOMATION

Years of experience at the forefront of development allows us to offer solutions based on real-world learnings.

You gain rapid processing of the challenges you face, married with our commitment to ground-breaking problem solving skills.

We can manage efficiencies, data and processes with a human/technology blend unrivalled in the industry elsewhere. .

**SOLUTIONS | EFFICIENCY | AUTOMATION**

## PROJECT MANAGEMENT

You benefit from over a decade's worth of standalone project management to the widest breadth of clients in aviation..

We take even the very complex and make it simple,

Our own operational success stands as testament to the possibilities available to you as a service.

**EXPERIENCE | PROVEN | RESULTS DRIVEN**

**Our Digital Team is on hand to help you optimise performance, drive up profitability and future proof your business**

# SPARTA

SPARTA is a one-stop solution to all your asset and fleet management requirements powered by custom-made AI and Machine Learning functionality as well as full form Robotic Process Automation.

Makes fleet-management faster, more intuitive, and less resource intensive

“

your digital asset manager

”

# Why Choose SPARTA

Easier management of contracts, including:

# 1

Lease set up and management  
Asset utilisation  
Invoice management

Intuitive Forecasting:

Maintenance related cashflow analysis  
Fleet-wide cashflow analysis with scenario modelling  
Maintenance events tracking and claims management

# 2

# 3

## Record Keeping and Technical Maintenance

Intuitive interface, secure and centralised records platform  
Schedule, Plan and Manage fleet wide inspection - all-in-one online platform

# Why is now the right time to engage us?

## MASSIVE GLOBAL CHANGE

With the overall political, social and economical factors driving companies to rethink business strategies, the common denominator is the need for digitalization and automation of company core processes.

## NO TIME TO WASTE

We can assist by providing the necessary skill, knowledge and know-how to build the solution you need, affording you precious time to remain focused on your company's core objectives without distraction.

## NEED FOR RESULTS, PROVEN

Technology and digital product development are our core Digital Business competencies. Outsourcing to a specialist, whose unique combination of deep Aviation sector knowledge coupled with expertise on new technology architecture and deployment, will avoid high costs attributed to poor design and execution decisions.

## STRIKING A BALANCE BETWEEN TECHNOLOGY AND PROCESS AUTOMATION SOLUTIONS

We enable you to stay focused on the core business model while benefitting from improved processes, technology and automation.

Start your  
digital journey
