

ENDURING. DRIVEN. VISIONARY.

BRIDGE EXPERIENCE

MassDOT, Longfellow Bridge Rehabilitation Design-Build, Boston, MA

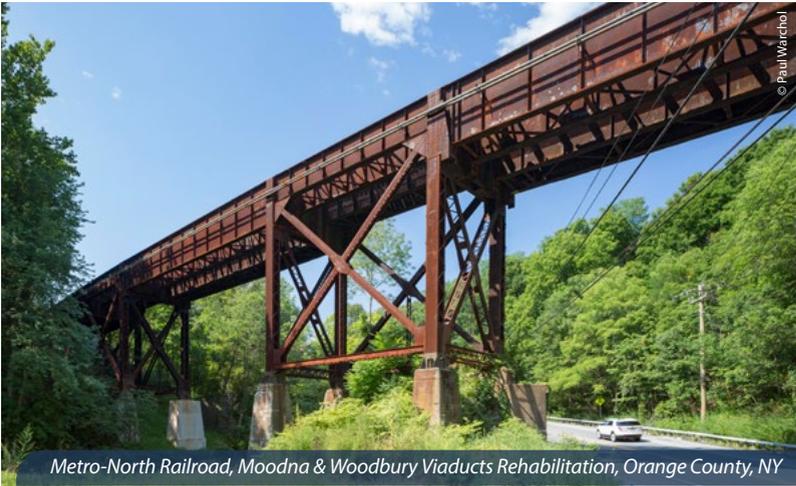

STV has long been an innovator in the design of fixed and movable highway, railway and pedestrian bridges. The firm provides wide variety of services to bridge owners, operators and contractors at any stage of a project's execution – from planning and analysis through final design and construction.

Our project portfolio ranges from small rural creek crossings to high-level, long-span structures and includes all bridge types: suspension; cable-stayed; movable; truss; steel, concrete, and masonry arch; steel beam/girder; precast segmental; precast concrete girders/boxes; cast-in-place (CIP) segmental; CIP multi-cell post-tensioned boxes; and timber.

Now in our second century, STV's mission is to create exceptional value for our clients and perform our services with integrity, vision, innovation, quality, and environmental sensitivity.
