

Maintaining up to date accounting records can be a time consuming and costly burden for any business. It is a must-do element of financial monitoring which requires a high level of competency in specialist accountancy methods and proficiency in several types of computer software.

The very landscape in which business is conducted is shifting beneath our feet. Finance leaders need to free up time to address challenges related to their core activity. A cost-effective finance function is essential to growth and benefits from the appointment of experienced financial personnel whose skills can add value at various levels to the advantage of the business and its shareholders.

Cafico International's experts have significant experience in the provision of high-quality financial reporting and administration solutions, we tailor our solution to meet each client's internal and external reporting obligations and corporate governance needs.

We will ensure safeguarding and supervision of confidential financial information, providing accurate and regular reporting.

We have extensive expertise in IFRS and Irish GAAP (FRS 101 and FR102) and can guide our clients through the implementation of complex new financial reporting standards.

We have significant legal and fiduciary experience in compliance with statutory regulatory reporting obligations and have developed efficient management processes for the financial administration functions that are critical to the success of our clients' businesses.
