Hypothetical or simulated performance results have certain inherent limitations. Unlike an actual performance record, simulated results do not represent actual trading or investments and may not be impacted by brokerage and other slippage fees. Also, since investments have not actually been invested or executed, the results may have under- or over-compensated for the impact, if any, of certain market factors, such as lack of liquidity. Simulated investments in general are also subject to the fact that they are designed with the benefit of hindsight. No representation is being made that the sub-fund or managed account(s) will or is likely to achieve profits or losses similar to those shown.

Cordiant is a wholly-owned subsidiary of the Dominion & Colonial Investment Partners group. Cordiant and its affiliated company, Cheverny Capital Inc.
