

The Consumer Goods Forum Forest Positive Coalition of Action

Dave Pendlington, Global Sustainable Sourcing Director, Mars, Inc.

Co-lead, CGF FPC Palm Oil Working Group

About the CGF Forest Positive Coalition

- ▶ **The Consumer Goods Forum (“CGF”)** brings together the CEOs and senior management of some 400 retailers, manufacturers, service providers, and other stakeholders across 70 countries, and encourages the global adoption of practices and standards that serves the consumer goods industry worldwide.
- ▶ **The Forest Positive Coalition is comprised of ambitious CGF member companies committed to moving efficiently and quickly towards a #forestpositive future.**

- ▶ **Members as of September 2021:**

- ▶ **Retailers:** Carrefour, Jeronimo Martins, METRO, Sainsbury's, Sodexo, Tesco, Walmart
- ▶ **Manufacturers:** APP, Colgate-Palmolive, Danone, Essity, General Mills, Grupo Bimbo, Mars, Inc., Mondelez, Nestlé, P&G, PepsiCo, Reckitt, Unilever

Our Theory of Change

The Coalition believes that its collective reach will enable members to make progress on four goals:

- 1. Accelerate efforts to remove commodity-driven deforestation from **individual supply chains**.
- 2. Set higher expectations for **suppliers and traders** to act across their entire supply base.
- 3. Drive transformational change in key commodity **landscapes**.
- 4. Define measurable outcomes on which all members agree to **track and report** individually and collectively.

The Coalition is focused on making progress through a combination of Coalition-wide Actions and delivering on Commodity-specific Roadmaps for palm oil, soy, pulp, paper and packaging (PPP), and beef.

The FPC Palm Oil Roadmap

- ▶ **Each commodity has its own Roadmap made up of 5 elements:**
 - ▶ Element 1: Own supply chain
 - ▶ Element 2: Suppliers and traders
 - ▶ Element 3: Monitoring and response
 - ▶ Element 4: Landscape engagement
 - ▶ Element 5: Transparency and accountability
- ▶ **For each of these elements there are:**
 - ▶ The commitments of Coalition members
 - ▶ Individual and collective actions to implement the commitments
 - ▶ Public information and KPIs for aligned reporting by Coalition members
- ▶ The Palm Oil Roadmap can be found on CGF Forest Positive Coalition [website](#).

The commodity Roadmaps are developed and implemented through **commodity-specific Working Groups** involving all members companies. **Technical support** is provided by Proforest and the Tropical Forest Alliance (TFA).

Forest Positive

2021 Annual Report

The Coalition's **first Annual Report** is now live on the CGF [website](#). This Report is an advancement of the journey to **drive progress in transparency & accountability**

SEPTEMBER 2021

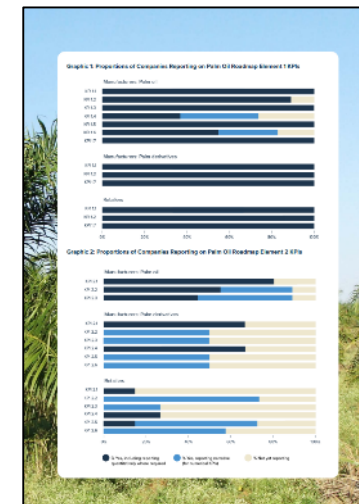

Palm Oil

How many companies are reporting on the Palm Oil Roadmap 2025?

As of August 2021, 11 manufacturers and over 1,000 other Coalition members (including both consumer brands and suppliers) are publicly reporting on some or all of the 80% of the Palm Oil Roadmap. The use of these manufacturers, joint oil derivatives and other materials and they are also publicly reporting on the 80% for this year or otherwise, many others. There is a good level of public awareness and increasing use of these Coalition members.

What do these results mean?

- Many Coalition members have already been reporting 80% of the information under Pillars 1, 2 and 3, the most progress, at 90 companies covering 90% of their palm oil supply. This is a significant achievement for the Coalition. Most companies are also reporting on their progress on Pillar 4. Currently, 90% of manufacturers using palm oil have set plans, with 60% of these manufacturers being public or otherwise, and all of the others.
- Many manufacturers have signed up to the Roadmap and are providing information on their progress. This is a significant achievement for the Coalition. Most companies are also reporting on their progress on Pillar 4. Currently, 90% of manufacturers using palm oil have set plans, with 60% of these manufacturers being public or otherwise, and all of the others.
- Manufacturers reporting public or otherwise, many others are reporting on their progress. This is a significant achievement for the Coalition. Most companies are also reporting on their progress on Pillar 4. Currently, 90% of manufacturers using palm oil have set plans, with 60% of these manufacturers being public or otherwise, and all of the others.
