UNRIVALED NEW BUSINESS AND DEAL ORIGATION OPPORTUNITIES WITH THE GLOBAL EXPORT, COMMODITY, PROJECT AND DEVELOPMENT FINANCE COMMUNITIES

The essential destination for the export, commodity, project and development finance communities

TXF has provided the export, trade and commodity finance communities with high-quality news, data, events, and awards for the past 11 years, and has become the go-to resource for the latest developments, insights and research and for business development in the industry. Proximo our project finance focused brand was founded in 2019, and is fast becoming the essential resource for market updates, producing globally recognised content, research and analysis. Exile group's youngest brand, Uxolo is dedicated to support the development and impact finance communities to further facilitate financings into projects that promote the United Nations' 17 Sustainable Development Goals (SDGs) and connecting our finance communities sustainably.

Connecting you with the right people, all in one-business trip

We've seen first hand the importance of meeting face-to-face and our dedicated team curate event attendee lists with the most active lenders, exporters, developers, traders, investors and major ECAS and DFIs in the export, commodities, project & development finance communities, industry. Our events provide the tools to maximise networking opportunities in the industries we serve, through personalised introductions, our networking concierge service, and meeting focused programmes.

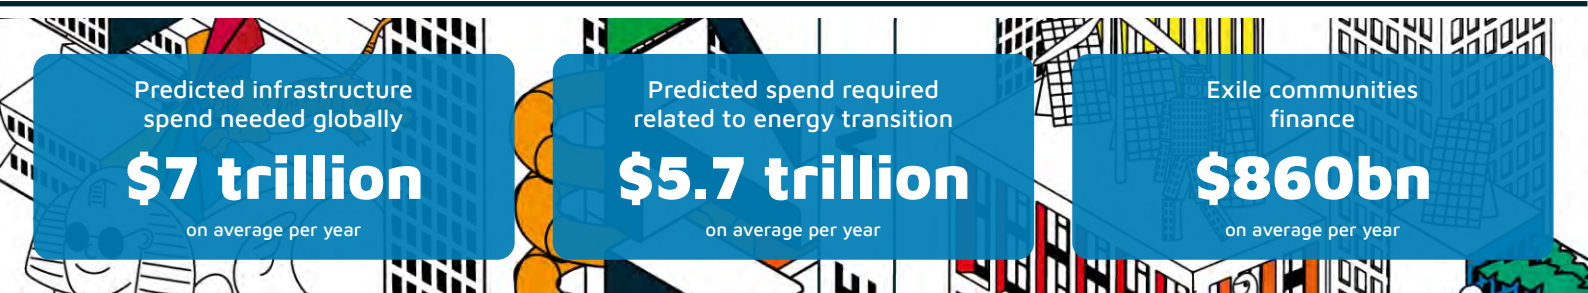

We spotlight activities of lenders, exporters, developers, traders, institutional investors and major ECAS and DFIs, tracking, reporting and analysing everything they do in the market and collect the data on the deals they've backed

We aim to help our customers and clients stay on top of their game with the latest developments in the industry and connect you with the right people to help business development and origination. We bring the industries we serve market-leading insight via our in-house intelligence team.

Maximise deal-origination opportunities

Our parent company Exile group brings together our 3 key brands - TXF export, trade and commodity finance, Proximo - project finance and Uxolo - development finance. Covering the full spectrum of global commerce: from a 28-day letter of credit that allows an SME in the north of England to fulfill a small bilateral export contract to a 20-year multi-party, multi-billion dollar rebuilding project in Ukraine.

Our events bring together these communities to enable attendees to maximise deal-origination opportunities with events which are co-located with project, export, commodities and development finance dealmakers.
