

G E C A S

A B O V E & B E Y O N D

GECAS is a world-leading aviation and lessor and financier. For over five decades, we have solved our customers' challenges and enabled their businesses to thrive.

Whether your need is for aircraft, engines, helicopters or materials, our name has become synonymous with trusted relationships, domain expertise and delivering on our promises.

GECAS. Ready for our second fifty years.

GECAS is the global commercial aircraft financing and leasing business of GE. Our story began in 1967, when we contracted our first aircraft lease agreement, a landmark that would help launch a new industry, allow easier access to capital for the world's rapidly expanding airline industry and enable lower cost air travel for millions of travelers.

Now with a fleet of 1,900 aircraft and helicopters, GECAS offers the largest fleet and widest array of solutions to customer needs. With a modern, innovative fleet in service and on order, GECAS is ready to drive your business higher.

## THE GECAS DIFFERENCE

GECAS works with you to solve complex questions that will enable your business to thrive. We are a passionate team of experts that draw on deep domain knowledge and global resources to create win-win partnerships for operators, financiers and investors.

GECAS offers the industry's widest array of leasing solutions. Our financing products and services include operating leases, sale/leasebacks, secured debt financing, engine leasing, materials and aircraft trading and asset management.

GECAS proudly serves ~250 customers across more than 75 countries – from startups to flagship airlines, from regionals to low cost carriers, from cargo airlines to helicopter operators. The breadth and depth of our customer base speaks to the strength of our relationships. We understand your business.

GECAS is found in every corner of the globe. Our footprint of 25 offices reflects our reach and our worldwide customer base. We speak your language.

GECAS stands tall by offering the broadest range of lease options, covering aircraft, engines and helicopters. As well as our own fleet of aircraft and helicopters, we provide asset management to investors, engine leases and materials/ components for lease or purchase.

There is no one size fits all. That's why, in addition to our core commercial aircraft leasing operation, GECAS extended offerings include solutions provided by our business platforms.

To find the specific fit for every need, our expert teams will create tailored solutions for your business.

AVIATION

## NARROW- & WIDEBODY AIRCRAFT

The core of the GECAS portfolio is our fleet of passenger aircraft, which includes fuel-efficient narrowbody and widebody aircraft by Boeing and Airbus, from 120 to 400 seats. GECAS has over 340 aircraft on order, including 737 MAX, A320neo and 787, to serve customer demand for growth and fleet modernization.

## REGIONAL AIRCRAFT

To meet the demands of customers serving thinner routes, regional communities and feeding hubs, GECAS offers a range of 50 to 120 seat regional jet and turboprop aircraft from Bombardier, Embraer and ATR.

## GE CAS CARGO

With over 90 owned and serviced cargo aircraft, and plans to convert fifty 737-800 to freighters, GECAS Cargo is uniquely positioned to meet the growing needs of cargo operators as well as aircraft owners looking to sell midlife narrowbodies.

# GECAS ENGINES

GECAS Engines is the world's leading engine leasing business, supporting airlines and investors with the lease, purchase and financing of engines from GE, CFM, IAE, Rolls Royce and Pratt & Whitney through long- or short-term leases and loans, exchanges and servicing.

## AIRCRAFT TRADING & MANAGEMENT

Serving the global aviation investor community, GECAS offers operators and investors the opportunity to purchase individual and aircraft portfolios, with or without existing leases attached. Aircraft are an attractive investment asset class but require expert management so GECAS can structure transactions to provide asset management services throughout the lease to institutional investors.

WEIGHT 2500 LBS

A man with a beard, wearing a dark jacket, stands in the foreground of an aircraft hangar, looking down at a tablet computer. The hangar is filled with the structural elements of an aircraft, including a large white fuselage section on the right and a complex metal scaffolding structure in the center. The lighting is dim and blue-toned, creating a professional and industrial atmosphere.

## GECAS MATERIALS

Among the world's largest distributors of recertified components available for purchase or lease, GECAS Materials provides comprehensive solutions for your supply chain. We also acquire aircraft and parts inventories through purchase or consignment.

## MILESTONE AVIATION

Milestone Aviation, a GECAS Company, is the world's leading helicopter lessor, with the largest civilian helicopter fleet and a suite of leasing and debt solutions. Milestone provides financing options to operators in the offshore oil & gas industries, search & rescue, EMS, police surveillance, mining and other utility missions. Its fleet includes Leonardo, Airbus, Bell and Sikorsky helicopters.
