Connecting you with the right people, all in one-business trip

Our events provide the tools to maximise networking opportunities through personalised introductions, our networking concierge service, and meeting focused programmes.

With our decided team curating attendee lists with the most active commercial lenders, institutional investors, funds, law firms, major developers and financial sponsors in the industry, you'll connect with new business partners both on and offline

Maximise deal-origination opportunities

Our parent company Exile group brings together our 3 key brands - Proximo - project finance, TXF export, agency, trade and commodity finance and Uxolo - development finance.

Having these three communities allows our customers to view and engage on projects from large multi-billion dollar projects with private capital to smaller emerging market deals including ECA, Multilateral and DFI funding.

Our events bring together these communities to enable attendees to maximise deal-origination opportunities with events which are co-located with project, export, commodities and development finance dealmakers.

Our Story

Exile began in 2013 by a tetrad of corporate Exilers dreaming of the freedom to live and work in a world with purpose.

From humble beginnings, from a small room in the dark towers of Deptford - a company was founded by Jonathan Bell, Dom Kloiber, Dan Sheriff and Katy Rose.

Its offices are located in London, New York and Serbia and hosts some of the most passionate and talented people in the industry.
