

UNRIVALED NEW BUSINESS AND DEAL ORIGINATION OPPORTUNITIES WITH THE GLOBAL PROJECT FINANCE COMMUNITY

The essential destination for the project finance community

Proximo provides the project finance community with high-quality news, data, events, awards and has become the go-to resource for the latest developments, insights and research and for business development in the industry.

Connecting you with the right people, all in one-business trip

We've seen first hand the importance of meeting face-to-face and our dedicated team curate event attendee lists with the most active commercial lenders, institutional investors, funds, law firms and developers in the project finance industry. Our events provide the tools to maximise networking opportunities through personalised introductions, our networking concierge service, and meeting focused programmes.

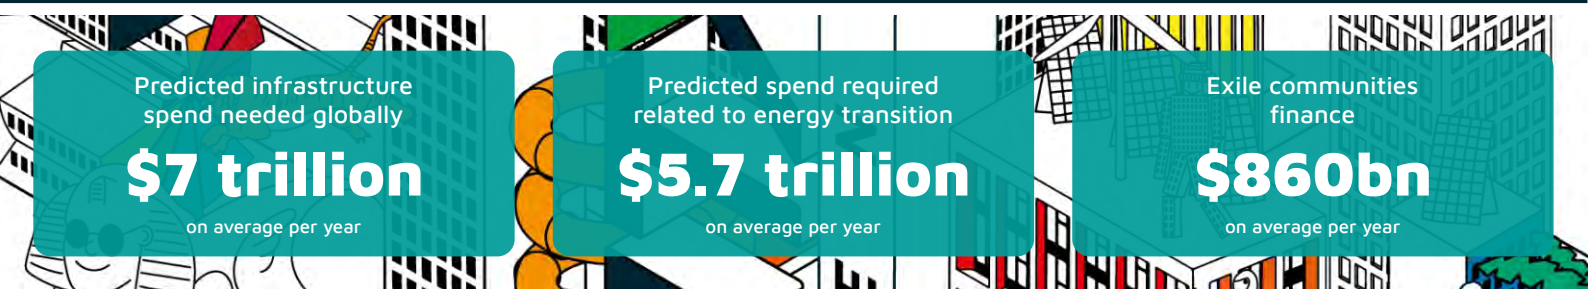

We spotlight activities of commercial lenders, institutional investors, funds and developers, reporting and analysing everything they do in the market and collect the data on the deals they've backed

We aim to help our customers and clients stay on top of their game with the latest developments in the industry and connect you with the right people to help business development and origination. We bring the project finance community market-leading insight via our in-house intelligence team.

Maximise deal-origination opportunities

Our parent company Exile group brings together our 3 key brands - Proximo - project finance, TXF export, trade and commodity finance and Uxolo - development finance. Covering the full spectrum of global commerce: from a 28-day letter of credit that allows an SME in the north of England to fulfill a small bilateral export contract to a 20-year multi-party, multi-billion dollar rebuilding project in Ukraine.

Our events bring together these communities to enable attendees to maximise deal-origination opportunities with events which are co-located with project, export, commodities and development finance dealmakers.
