**Roles to suit your unique situation**

As a truly independent third-party service provider, we can act as an administrative agent for senior and subordinated debt, as a trustee on bond issuances, and as a facility agent on specialized tranches, such as those with Export Credit Agencies, multilaterals, and government agencies. On multi-tranche transactions, we can serve as an intercreditor agent. We also provide independent collateral agent and depositary agent services.

**Focused on the services you need most**

Our multiple award-winning project finance services are further complemented by Wilmington Trust's broad suite of trust and agency services, covering the public finance, structured finance, and syndicated loan markets.

As an institutional money manager, we believe in active portfolio management and employ a disciplined, risk-managed approach. Our investment management solutions are tailored to the unique needs of each client and employ key elements such as duration and yield curve management, sector management, and issue selection.
