

**PROVIDING
NEW BUSINESS
AND ORIGINATION
OPPORTUNITIES WITH
THE GLOBAL COMMODITY
FINANCE COMMUNITY**

The essential destination for active players in commodity finance community

TXF complements the entire deal origination process including sourcing new business opportunities via a comprehensive suite of services including data, market sentiment research, news and connecting with new business partners at our market leading events.

Our in-house intelligence team spotlights activities of lenders, insurers, traders and producers, tracking, reporting and analysing market activity and deal-data.

our events

Connecting you with the right people, all in one-business trip

Our events provide the tools to maximise networking opportunities through personalised introductions, our networking concierge service, and meeting focused programmes.

With our decided team curating attendee lists with the most active lenders, insurers, major traders and producers in the industry, you'll connect with new business partners both on and offline.

Maximise deal-origination opportunities

Bringing together our three brands we cover the full spectrum of global commerce: from a 28-day letter of credit that allows an SME in the north of England to fulfil a small bilateral export contract to a 20-year multi-party, multi-billion dollar rebuilding project in Ukraine.

Our events bring together these communities to enable attendees to maximise deal-origination opportunities with events which are co-located with project, export, commodities and development finance dealmakers.

Our Story

Exile began in 2013 by a tetrad of corporate Exilers dreaming of the freedom to live and work in a world with purpose.

From humble beginnings, from a small room in the dark towers of Deptford - a company was founded by Jonathan Bell, Dom Kloiber, Dan Sheriff and Katy Rose.

Its offices are located in London, New York and Serbia and hosts some of the most passionate and talented people in the industry.
