The essential destination for the development finance community

Uxolo strives to be a window into the development world whereby investors and lenders can gain a better understanding of and access to Development Finance Institutions (DFIs) and Multilateral Development Banks (MDB) and their projects, ensuring greater financing flows to help mitigate climate change, and for the betterment of humanity and the natural world.

Connecting you with the right people, all in one-business trip

We've seen first hand the importance of meeting face-to-face and our dedicated team curate event attendee lists with the most active lenders, DFIs, MDBs, impact investors, funds and institutional investors in the development and impact finance community. Our events provide the tools to maximise networking opportunities in the industries we serve, through personalised introductions, our networking concierge service, and meeting focused programmes.

We spotlight activities of DFIs, MDBs, impact investors, funds and institutional investors tracking, reporting and analysing everything they do in the market and collect the data on the deals they've backed

We aim to help our customers and clients stay on top of their game with the latest developments in the industry and connect you with the right people to help business development and origination. We bring the development community market-leading insight via our in-house intelligence team.

Maximise deal-origination opportunities

Our parent company Exile group brings together our 3 key brands - Uxolo - development finance, Proximo - project finance and TXF export, trade and community finance. Covering the full spectrum of global commerce: from a 28-day letter of credit that allows an SME in the north of England to fulfill a small bilateral export contract to a 20-year multi-party, multi-billion dollar rebuilding project in Ukraine.

Our events bring together these communities to enable attendees to maximise deal-origination opportunities with events which are co-located with development, project, export and commodity finance dealmakers.

Predicted infrastructure spend needed globally

\$7 trillion

on average per year

Predicted spend required related to energy transition

\$5.7 trillion

"A forum that is providing the DFI community an opportunity to rethink their role and responsibilities in climate finance."
Senior Legal Advisor - Silverstreet

"Participating in the event was seamless, the conversations where engaging & insightful, and the connections made during the event have continued outside the conference."
Private alternative & impact investments, Fondaction

"The Uxolo event was great. The presentations were kind of a lightbulb moment for me. Looking forward to the next one."
Regional Head of Operations, IFC

"The virtual climate finance networking and intelligence platform has been providing real-time feedback loops from COP26 and Multi-Development Banks' Financial decisions, sharing the news with its audience that helps crowd-in private capital investors."
Director of Climate, Energy, Extractives, Financial & Capital Markets, MIGA, The World Bank Group

"The inaugural Climate Finance Event was well organised and brought together a range of global stakeholders to engage in meaningful discussion regarding innovative capital solutions and strategies to address the climate crisis"
CEO, Earth Security

"The event offered very insightful panels and it was a fantastic networking opportunity for investors from various backgrounds. Working for a DFI I found it particularly interesting to hear about the initiatives and business models of private capital investors."
Head of Financial Institutions Asia, DEG
