Why Copenhagen?

Home to some of the best restaurants in the world, impressive architecture and design, a rich royal history and a wide array of cultural offerings, the city has something for everyone.

The Venue

Tivoli Hotel & Congress Centre offers you the best opportunity yet to put networking and deal-making at the heart of Global 2025. With more meeting rooms and centralised networking areas than ever before, you and your team will have the unparalleled opportunity to connect and originate deals with the market.

Client Entertaining

We know that Global 2025 also acts as a springboard for many of our clients to host client dinners, drinks and activities whilst everyone is together in one place. **Copenhagen's restaurant scene** is among the world's most distinct and innovative, and it caters to all budgets, tastes and situations. The city is home to 15 Michelin restaurants, including the world's number one, Geranium. The many street food markets are popular among locals and visitors alike and the city's bustling bar and cafe scene means there is always a new place to try out.

It wouldn't be a visit to Copenhagen without sampling a Danish-style **hot dog** or a delicious pastry from one of the many fabulous bakeries in the city. We particularly like **Hart Bageri!**

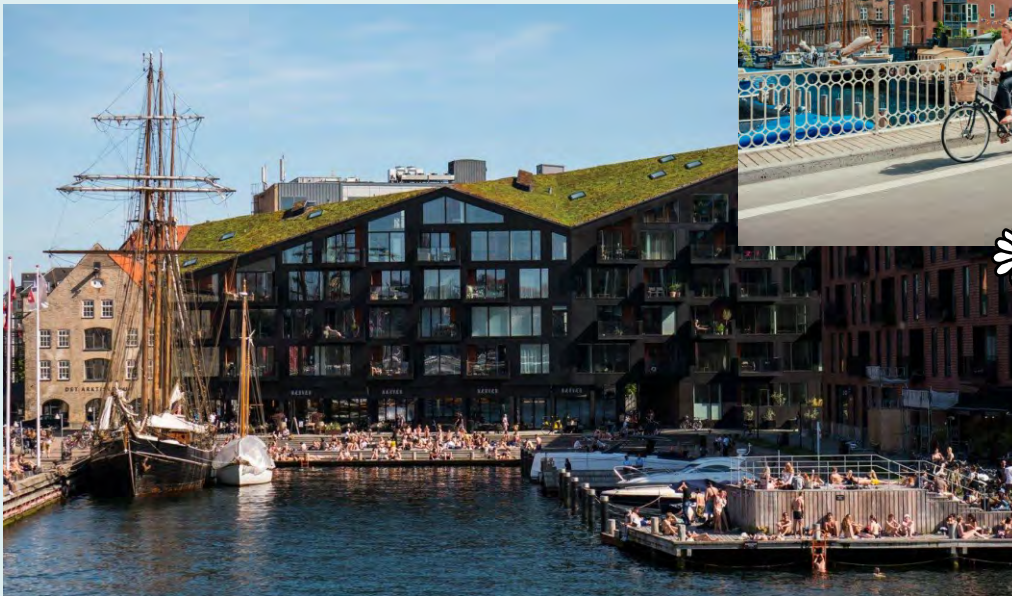

Why Copenhagen?

A Greener Event - Capital of Sustainable Development

It may not come as a surprise that a city with such a strong focus on bikes is also one of the most sustainable destinations in the world. Just like the rest of Denmark, Copenhagen has a strong track record of pursuing green solutions to help reduce its carbon footprint.

The city has an extensive public transport network which makes it very easy to get around. The journey from the airport to the city centre is only a 15 minute metro ride, with the venue just a short 15 minute stroll from the station or you could hop on the bus to cut it down to 5 minutes!

Tivoli Congress Centre is also at the heart of our initiative for a greener event, having been awarded the Green Key environmental certificate, the venue meets and exceeds the recommended criteria on energy and water usage, sustainable food, staff involvement, etc.

Venue Floor Plan

The map below shows the main event area with all the main plenary rooms, as well as the premium meeting rooms. There are a further 3 floors which hold networking spaces, 45 more meeting rooms and additional break-out rooms.
