The Proximo LatAm event is always a great way to stay connected to the world of infrastructure finance that matters for Latin America. The team at Proximo ensures a professional but fun atmosphere that facilitates close networking for relaxed business development. I'll be sure to return.

Another great forum organized by Proximo with the key players in the infrastructure/energy space. Great place to connect with clients, financial institutions, developers and sponsors across infra, energy, transport and telecom and to hear different perspectives on the most relevant market trends from the key experts in the region.
