THE ACROPOLIS: SPECIALIST STREAMS

The Parthenon: Credit & Political Risk Insurance (CPRI) club

Our CPRI club brings together leading experts to assess the Political Risk Insurance (PRI), and Credit Risk Insurance (CRI) markets. With numerous corporate deities focusing on PRI and contract frustration (CF), a horde of heroic lenders specializing in credit risk (CR), and ECAs and DFIs looking to reinsure their portfolios, we delve deeply into these critical topics over the course of two days, illuminating the Parthenon with fiery debates and valuable networking opportunities.

The Agora: Export credit stream

The Agora, once the central marketplace and civic centre of Ancient Athens, serving as the hub for political, commercial, and social activities, now finds itself the epicentre of the intricacies of the export credit world. From the forging of the Net Zero Export Credit Alliance, to increased ECA collaboration with DFIs and private investors, along with the introduction of innovative new ESG-focussed products, the stage is undoubtedly set for the kind of rhetoric and oratory suitable for our ancient Greek hosts.

Temple of Hephaestus: Industry workshops

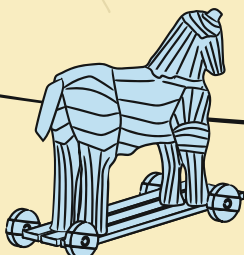

Please take a seat at one of our industry workshops held inside the temple dedicated to Hephaestus, the god of craftsmanship. Each industry has been selected based on levels of ECA-backed borrowing over the last 3 years from the Tag My Deals data. Join our tables hosted by gods, titans and heroes of industry, and roadmap the medium to long term outlook of the following industries:

- Table of Poseidon: Shipping
- Table of Pegasus: Aviation
- Table of Aeolus: Offshore & onshore wind
- Table of Aether: The new hydrogen economy
- Table of Helios: PV Solar
- Table of Zeus: Electricity Transmission
- Table of Daedalus: Metals & Mining
- Table of Hermes: Telecoms, communication, cellular & mobile infrastructure
- Table of Hyperion: Chemicals/petrochemicals
- Table of Hera: Oil, gas, carbon storage and capture
- Table of Coeus: Manufacturing
- Table of Hecate: Rail & road infrastructure
- Table of Apollo: Health & social projects

The Heroic Feats of Heracles: Uxolo Development & Impact Finance Stream

We harness the collective strength of our global development finance institutions, private investors, government stakeholders and commercial lenders to confront the most pressing challenges of our time. Just as Heracles aided Atlas in bearing the weight of the heavens, our modern heroes are dedicated to financing the UN Sustainable Development Goals (SDGs), climate finance, Environmental, Social, and Governance (ESG) investment, critical infrastructure initiatives, mobilising private capital enabling bankable project pipelines worldwide. Join us in this Herculean endeavour to shape a more green, sustainable, and equitable world.
